Lab 1 Flowchart-Pseudocode

Create a Flowchart to prompt the end-user for any three integer numbers and display the product of these three numbers. Also display "Hello World" and a "Thank you".

Pseudocode

```
Start
Display my information
Declare my variables
    integer1
    integer2
    integer3
Output/Input
    "Please enter 3 integers"
    integer1
    integer2
    integer3
Input
Process
    Product = integer1*integer2*integer3
Output
    "Hello World"
    Product
    "Thank You"
Stop
```
